

EMBO Laboratory Leadership (3-days) course

EMBO Lab Leadership Courses

In-person course

Course

**Date: 28-30 January
2025**

**Venue: HCEMM
Incubator house**

**Registration until 15
November 2024**

[Pre-register here](#)

(The course is limited to 16 postdoctoral
researchers with a waiting list)

Key Highlights:

- Learn essential leadership concepts tailored to the laboratory environment
- Develop your own personal leadership style and approach
- Enhance your communication and team-building skills
- Master conflict resolution and problem-solving techniques
- Build a network of peers for ongoing support in leadership challenges

Are you ready to take the next step in your research career? Leadership and management skills are essential for success in science, yet these areas often receive little focus in traditional academic training. EMBO, in collaboration with expert consultancy teams, offers a specialized course designed to meet the unique needs of researchers in academia.

Key Topics Covered

- Leadership and communication skills
- Team development and delegation
- Conflict-solving strategies
- Recruitment and feedback techniques
- Running effective meetings and coaching staff
- Effective problem solving and managing lab dynamics

Content:

Why Attend?

Whether you're a postdoctoral researcher or leading your own group, this course will help you develop the leadership and communication skills needed to excel. You'll gain a deeper understanding of how to lead your team effectively, manage conflict, and navigate the complexities of research management. Through practical exercises, personalized feedback, and interactive discussions, you will walk away with the tools and strategies to become a more confident and effective leader in your lab or research group.
