COVID-19 safety policy

At HCEMM all Covid-19 safety measures for events/visits/internship periods have now been relaxed, in line with the removal of precautions in Hungary. Please just take a moment to read the safety recommendations below.

Safety recommendations

Participants in our courses and internship periods are encouraged to take a self-test before travelling to HCEMM. Once here, self-test kits are available on request for you to test occasionally during your stay, especially important if experiencing symptoms that could be Covid-19.

Masks are optional.

This policy may still change with any new developments. Registrants are always contacted directly with any requirements for their particular course or visits.

Safe conduct at the event

By attending, you agree to abide by applicable Hungarian regulations, and to conduct yourself in accordance with any provided instructions. You must refrain from coming to the event or leave promptly if you test positive for COVID-19 and may not re-join until you test negative.

In addition to the above information, you can find the most frequently asked questions on our [Corona and COVID-19 FAQs](#).
